

Muhammad Ardhy Satrio Jati

Software Developer

Kotabaru, Indonesia • hey@ardhysatrio.works • [ardhysatrio.works](#)

SUMMARY

An Enthusiastic web and android developer with a focus on attractive experiences for users and solving problems creatively. I have handled several personal and campus web-development projects related to information systems, portfolio page, and company landing page with a wide range of cutting-edge technology features. Skilled in agile processes, backend/frontend web development with Laravel and ReactJS, and creating Android application that integrate with cloud services and APIs. With hard and soft skills I have learned, used and polished the last few years, I would like to develop my career in or as an Software Developer.
